POWER PANELS

Custom-built panels for smooth motor control, energy efficiency, and reliable power management.

AUTOMATION SYSTEMS (PLC BASE/RELAY BASE)

Smart automation solutions to boost productivity, precision, and process control with ease.

MOTOR CONTROL PANELS (VFD / SOFT STARTER / DOL / STAR-DELTA / AUTO TRANSFORMER)

Efficient and reliable starters including VFD, Soft Starter, DOL, Star-Delta, and Auto Transformer to optimize your motor performance.

CAPACITOR BANK / VAR COMPENSATOR

We offer Capacitor Banks and VAR Compensators that improve power factor, reduce energy losses, and enhance the efficiency of electrical systems.

ENERGY AUDITS AND CONSULTATION SERVICE

Identify energy-saving opportunities and cut costs with our expert energy audits and consultation services.

LIGHTNING PROTECTION SYSTEM AND CONSULTATION SERVICE

Provide complete Lightning Protection Systems along with expert consultation to safeguard buildings and equipment from lightning-induced damages.

DATA MONITORING AND RECORDING SYSTEM (TEMPERATURE / ENERGY / FLOW / PRESSURE, ETC.)

Real-time tracking of temperature, energy, flow, pressure, and more for smarter industrial control.

INDUSTRIAL WIRING (LOW VOLTAGE / MEDIUM VOLTAGE / HIGH VOLTAGE)

We undertake Industrial Wiring projects across all voltage levels, ensuring safe, efficient, and compliant power distribution infrastructure

TRANSFORMER SUPPLY AND INSTALL

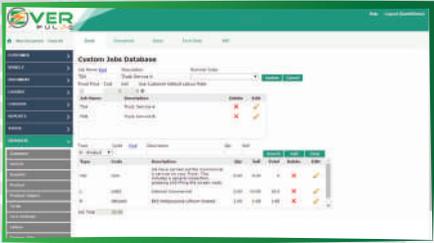

We supply and install reliable transformers tailored to your capacity and voltage requirements for seamless power conversion and distribution.

VISION-BASED AUTOMATION SYSTEM

We implement Vision-Based Automation Systems that enable intelligent inspection, quality control, and operational efficiency using advanced imaging technology.

Modern Approaches and Technologies

Software-based applications
